Driving in Japan

Renting a car is an option worth considering if you plan to explore rural Japan (Oki Islands) where public transportation can be both inconvenient and infrequent.

A rental car can also be an economical alternative when traveling in groups or can make traveling with a lot of luggage easier.

The minimum age for driving in Japan is 18 years, and you will need a Japanese driver's license or an International Driving Permit (IDP) in order to rent and drive a car.
